

HARSH JOSHI

EDUCATION

Indian Institute of Technology (BHU), Varanasi <i>Integrated Dual Degree in Civil Engineering</i>	2023 - 2028 8.71
GVV Sr. Sec. School <i>CBSE</i>	2022 88.88%
GVV Sr. Sec. School <i>CBSE</i>	2020 90.60%

SKILLS

Programming Languages: JavaScript, C, C++, SQL

Technologies & Frameworks: React.js, Node.js, Express.js, MongoDB, PostgreSQL, REST API Design, JWT Authentication, BullMQ, Gmail API, Chart.js, Git, GitHub, Postman

INTERNSHIPS

Falcon Marine Exports Ltd. <i>Software Engineering Intern</i>	May'26 - Jul'26 Remote
- Contributed to the full-stack development of an internal export operations tracking platform using React.js, Node.js, and PostgreSQL, collaborating with the engineering team to improve shipment visibility across 7 processing facilities and 8+ international markets including the US, EU, and China. - Designed and implemented 6+ RESTful APIs supporting shipment status updates, dispatch logging, and consignment tracking, integrating with the company's BAP, BRC, and IFS-certified traceability workflow to maintain data consistency from farm dispatch to export. - Assisted in implementing JWT-based authentication and role-based access control (RBAC), enabling secure, segregated data access for plant managers and logistics coordinators in line with internal data governance practices. - Optimized database queries on an 8,000+ record shipment dataset by adding composite indexes on facility, destination, and dispatch-date fields, cutting average query time by ~35%.	

PROJECTS

FinTrack AI-Powered Personal Finance Platform (MERN Stack)
- Engineered a fault-tolerant, dual-layer AI fallback system, rerouting failed OpenAI GPT-4o-mini calls to a custom Node.js engine to eliminate single points of failure. - Hardened multi-tenant data security via JWT-authenticated RESTful APIs and Mongoose/MongoDB-enforced data isolation, layered with Bcrypt hashing - Mitigated a critical Git indexing crash and exposed credential risk by purging node_modules/.env via .gitignore, enabling a clean GitHub deployment. - Built a responsive React.js SPA with Recharts-driven visualizations and Redux-powered optimistic UI updates for real-time expense tracking.

POSITIONS OF RESPONSIBILITY

Training & Placement Representative Training & Placement Cell, IIT (BHU) Varanasi	Apr'24 - Present
- Managed full recruiter lifecycle for 38+ companies - facilitating 40+ offers that accounted for ~3.26% of total campus offers within a 120-member placement team. - Served as the primary liaison between 50+ corporate recruiters and the student body, managing end-to-end on-campus placement drives as part of a 120-member TPC team serving 3,000+ students. - Served as Marketing Executive for CDP'2026, TPC IIT BHU's annual flagship event - led corporate outreach and event management, that contributed to onboarding 10+ industry partners; coordinated cross-functional execution of 16+ career development events encompassing workshops, and leadership interaction sessions for a student base of 3,000+.	
Comedic Artforms Head Literary Club, IIT (BHU) Varanasi	Apr'24 - Apr'25
- Spearheaded the planning, coordination, and on-ground management of IIT BHU's outstation contingent of 120+ students for the Inter-IIT meet. - Drove contingent performance strategy and inter-team coordination, securing 3 podium finishes across events at the Inter-IIT competition.	

ACHIEVEMENTS

- Achieved **3rd position** in *Navigating Climate Crisis*, a Technical Case Study at **Civil Conclave, IIT Roorkee** (Jan 2024), proposing adaptive infrastructure frameworks addressing **climate risk across 3+ urban scenarios**.
- Ranked **3rd** in **Prod-O-Mania** a Product Management & Analytics case competition at **Avenues 2024**, IIT Bombay's annual business festival, delivering a **data-backed product strategy with market sizing, user segmentation, and KPI frameworks**, competing against 100+ teams from premier engineering and management institutes.
- 2nd Position**, Case Clash - SHILP'24 (IIT BHU, April 2024); a jury-evaluated National level case competition testing **applied problem-solving in civil engineering scenarios**.
